## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 2, 4, 5, 6, 8, and 9 drawn to an apparatus and method of storing or transferring an image along with a generated image processing parameter, classified in class 382, subclass 276.
  - II. Claims 3 and 7 drawn to an apparatus and method of storing or transferring an image along with a image processing parameter retrieved from a table, classified in class 382, subclass 209.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions Invention I is an apparatus and method of storing or transferring an image along with an image processing parameter generated based on the difference between a reference resolution and a second resolution. Invention II is an apparatus and method of storing or transferring an image along with a image processing parameter by making reference to a table that correlates the parameter to a resolution. The second invention does not generate or determine the image processing parameter based on a reference resolution as the first. Both invention operate separately and are not useable together.

Art Unit: 2615

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gevell Selby whose telephone number is 703-305-8623. The examiner can normally be reached on 8:00 A.M. - 5:30 PM (every other Friday off).
